Right, neighbor. It was also a happy thing for the people, for whose benefit such advertisements are presumed to be given, that there was a paper in the county, having a good general circulation in it, which was willing to do them this service, in order that the law might not be defeated in its true purpose. As we said before, we see nothing wrong about the matter except that, if Sheriff Barber wished to reward his spec. ial friends of the News, in violation of the intent and spirit of the law, he should in justice pay the expense out of his own pocksend a thing of this kind away from the county seat where he is making a fortune by favor of the people, and from the paper having the largest circulation, in order to gratify his personal spite, at the public expense. The fair supposition is that Brother Barber don't want the votes of the people of San Marcos, Stringtown, down the river, Wimberly, Dripping Springs, and other points where the FREE PRESS is predominant, and that he is relying exclusively on Kyle for re-election. Now while we are glad to admit the enterprise of Kyle, and all else that may be justly claimed for her, we yet doubt her ability, single-handed, to elect any candidate for office-the other voting places of the county will have to be

Burleson. Upon motion of W. D. Wood which prevailed, the number was increased to eight. Upon motion of Capt. J. G. Storey the eight gentlemen in nomination were elected by acclamation.

The following resolutions were then offered by W. D. Wood, which were unanimously carried :

The Democracy of Hays County recognize the doctrine of a tariff only for revenue as one of the distinctive and ancient princi-

ples of the Democratic Party.
2. That the candidate of the Democratic party for the next President shall stand apon a platform fairly and squarely embracing as one of its principles the doctrine of tariff for revenue only, and that the candilate of the party shall be a man personally committed to this distinctive doctrine.

3. That the principle of a tariff levied for protection is but another name for taxing by law the great mass of the people of this country for the benefit of the few, resulting in monopoly, the concentration of th money and property of the country the hands of the few at the expense the many—is class legislation and is opposed to the principles of liberty, equality and free government; and as such is direc-tly opposed to all the traditions and doc-trines of the democratic party, which has ever been the party of the people.

Galveston Christian Advocate.

[The following was put in type three weeks ago, but accidentally deferred.]

Recently very heavy rains have fallen in this section of the country, and the prospects for a good crop were never better. Gardens are in excellent condition, and in a few days our tables will be laden with nice, fresh vegetables. Nature wears a gorgeously beautiful dress, and for loveliness and charming scenery our vicinity challenges comparison with any in our State, if not in the United States. And then our noble river perhaps ir not surpassed in beauty by any in the world. Dr. Ditzler, as he looked down into its clear depth and saw its varying tints and hues as exhibited in the vegetable growths all under water, said it defied description. We are soon to have an ice factory, and our water-works are a perfect success, and an abundant supply of water can be furnished to any part of the town.

Our quarterly meeting has just closed. The attendance on Sabbath was very large, and the sacramental service very solemn and impressive. The number of the young who

and the sacramental service very solemn and impressive. The number of the young who came forward and commemorated the Sa-vior's death was very large. Dr. Bourland vior's death was very large. Dr. Bourland was with us at our cammunion three months ago, and when he saw so many young people coming forward, his remark was, "What a beautiful sight!" Our presiding elder preached morning and night. The sermons were excellent, especially at night. The question of intemperance, saloons and prohibition was discussed in a clear and pointed style. Some few were angry, but the large congregation present endorsed it, and the community, as a whole, commend the effort as most timely and effective. The FREE PRESS, of our town, has of late been dealing some heavy blows at saloons and saloonists in general, and from present appearances the war is likely to be kept up. All honor th the brave-hearted editor. He is one among editors that cannot be bought, and who will not cringe to the whisky power. All good men sustain him and will support him. If the secular press of our State were as true to the interests of the people, very soon whisky and crime would be

ple, very soon whisky and crime would be among the things that were.

Our Institute is very prosperous. Pro-fessor Pritchett and his able assistants are doing a great and invaluable work. Several of our best young ministers have been adve doing a great and invaluable work. Several
of our best young ministers have been educated at Coronal, and others will doubtless
go from her halls to preach Christ to a dying
world. Will not the church, during this
centennial year, rally around this institution,
and furnish the means to complete the building and increase its facilities for use-fulness? Especially do we think it of vital importance to the West Texas Conference to foster and build up this, the only insti-tution of learning within her bounds. Many of our people in this western country are too poor to send their children further east too poor to send their children further east to obtain an education, and when we con-sider that our Mexican work is enlarging, and that we must, as a church, educate our Mexican youth, the importance of Coronal Institute cannot be overestimated. W who lives here, attending the Institute, and they are bright and devoted to their studies. May our people, during this centennial, be-come aroused to the question of Christian education, and may all our schools and colleges be amply supplied with means and resources to educate our children.

[If our readers will recall how often we have received unmerited censure and gross abuse from unworthy sources, we think they will not accuse us of undue vanity in publishing the above by way of "set off." We will frankly confess that we are not, and trust we never shall be insensible to the approval of the good and true.]

PEBBLES

MOST BRILLIANT AND PERFECT

They are as TRANSPARENT and COLORLESS as light itself, and for softness of endurance to the eye cannot be surpassed enabling the wearer to read for hours without fatigue—in fact they are perfect sight preservers.

As thousands throughout the country will testify, who have had their eyes greatly benefited and preserved by their use. Such men as Gov. R. B. Hubbard, Judge E. B. Turner, Lieur. Gov. Mar-TIN, JUDGE BONNER of Supreme Court, deceased, R. F. BUNTING, GEO. GOLDTRWAIT—and hundreds alone in the county of Hays will testify to their great brilliancy and purity. Peddlers or trav-

eling agents will not be supplied with these spectacals at any price. MR. S. F. MCALLISTER
